Merco Tape Stick With Merco™

Quality tapes since 1972

Products can end up thousands and even tens of thousands of miles from your docks. Whether you’re outfitting six weeks at the Ross Sea in Antarctica, supplying pioneering technology on the way to Mare Tranquillitatis on the Moon or just helping to send a holiday fruitcake by UPS to Grandma in Orlando we know your customers buy tape expecting it to work. The first time and every time.

And whether it’s hundreds of hours into the project, hundreds of thousands of miles from your supply house, or in the cargo hold 35k feet over Florida no time is a good time for the failure of *any* tape you supply.

At Merco we’ve got near 50 years experience making sure your customer service people don’t hear “Houston, we have a problem...”

Merco Tape. Quality. Performance, Price. Guaranteed.
