

“I wish the boss had offered **MERCO M187 Economy PAINTER’S MASKING TAPE** way back in 1934! I’d have **10 days** to clean this mess up.”

Merco Company

Who would have known that in 2011 house painters would be paid more than FDR was in 1934? Can you *really* afford to pay them to clean glass, sand wood trim or wash carpet edges? Of course not.

At Merco, we’re pleased to announce our **M187 Economy Painters’ Masking Tape!** Put it up, paint like you’re Oscar Madison and take it down up to 10 days later (indoors or out!) for a job that will look like Felix handled the whole thing. Neat as a pin!

- Moisture & UV resistant
- 5.4 mils thick
- 25 oz psi adhesion to stainless
- 22 lbs psi tensile strength
- 150° F maximum working temperature

Be sure to ask your salesman about our other tape products too. We offer a full line of masking, ducts, foils, electricals, gaffers, shipping room, double coated, Teflon™ and specialty tapes. Tapes for just about any building trade, theater and the arts, manufacturing and technology.
